

## BAD CASE

Said to Be Against One Randle  
McNelly,

NOW IN JAIL AT MURRAY.

His Case is Set For Next Monday—  
Threats of a Lynching.

ASSAULTED AN AGED LADY.

There is a strong probability that Randle McNelly, the negro arrested at Murray day before yesterday on a charge of attempted outrage, will be lynched.

This information came from Murray this morning. McNelly, as will probably be recalled, was arrested for assaulting Mrs. Tuttle, an aged and highly respected lady. The Calloway "Times" says of it:

"She was going from her home to a neighbor's when, it is charged he grabbed her from behind. Her screams brought neighbors to the scene and the negro fled. He at first refused to be arrested but a pair of bulldog persuaders in the hands of determined men soon brought him to terms."

The trial was set for yesterday, but continued until next Monday, and the prisoner was remanded to jail.

It appears that public sentiment grows stronger against him every hour, and last night there was more talk of lynching him.

Today there are still stronger threats made against him, and it was openly predicted that as a lesson to others premeditated to such conduct he would be summarily dealt with before the trial.

McNelly has lived about Murray for the past two years, working on the railroad, and at odd jobs when he had nothing else to do. He is a large man, and his reputation has never been the best.

RICHEST QUARTZ LOCATED.

Alaska Prospectors Make Another  
Big Strike in the Hills.

Seattle, Wash., July 27.—The reports from the Klondike regions received last night indicate that supply of food is running very low. Canned meat is sold at from 25 to 35 cents a pound, and flour at 50 cents a bushel. Hams are not to be had at any price, but could easily be sold for \$50. Cheese sold at \$2 a pound, crackers at the same price and raisins and such delicacies even higher. It is expensive living, but when the vessel laden with supplies unloads and its precious cargo is taken to the diggings there'll be a great feast.

The latest rumor from Alaska is of the discovery of wonderfully rich quartz in large quantities on the Stewart river. Particulars are vague, and beyond the fact that the ledge is a large one that the rock assays \$300 nothing can be learned.

This, if true, will mean much for the Klondike district. The Stewart river rises into the Yukon not far above Dawson, and it is reasonable to suppose that the placer gold now being found below may have its origin in the mountains at the head of the Stewart river and neighboring streams.

The Alaska "Searchlight" publishes a letter from Wm. Moore, of Forteen-mile Camp, Skagway, Alaska, stating that the White Pass pack train to the summit of the pass was opened for travel July 16. On reaching the summit the traveler steps upon an almost level country, the grade to the lakes being thirty feet to the mile. The distance from salt water to the Toocool lake is thirty miles, and from salt water to the head of Lake Bennett the distance is forty-five miles. Both routes from the summit are through rolling country, for the most part open, with plenty of grass for feeding stock, water and sufficient timber for all purposes. From salt water to the summit stock and pack horses can be driven through easily.

A DOUBLE KILLING.

Two Mountain desperadoes Fight  
It Out.

Watersburg, Ky., July 28.—Dick Williams and John Sowers, who had been engaged in a fight yesterday and the result is that Williams was shot and instantly killed by Sowers, after the former fatally stabbed the latter.

DYING OF STARVATION.

Gold Diggers With Hundreds of  
Dollars Could Buy No Food.

Duluth, Minn., July 27.—W. A. Foote of this city, has just returned from Seattle, where he and a number of acquaintances who have been just returned from the Klondike. The stories of the vast richness of the country, M. Foote says, are almost beyond belief, but unless one is sufficient food for at least eighteen months he is likely to suffer for the want of it. Men with thousands of dollars' worth of gold dust were begging for bread just before the boat came up the Yukon early in the spring. People who had provisions at all only had enough to satisfy the owner's wants and would not sell supplies at any price. Many suffered from want of proper clothing to withstand the extreme cold.

Last week a great many people survived for weeks on salt pork without any vegetables of any kind. Just before the first boat arrived men who had gold enough to buy a dozen farms begged with tears in their eyes for a few potatoes or a little pork. Some persons who took up claims some distance from regular camps died of exposure and starvation.

KENTUCKIANS GET

THE CRAZE.

Will Try Their Hand in the Land  
of Gold and Snow.

Louisville, July 28.—Thirty young men leave today from various parts of Kentucky for the Alaskan gold fields.

OFF FOR ALASKA.

Another Ship Load Leaves for the  
Frozen North.

San Francisco, July 28.—The steamer Excelsior sailed for Alaska today with 400 prospectors aboard, and a large amount of freight.

PLAGUE OF

MOSQUITOES

Proving Fatal to Children in New  
York and New Jersey.

A BUSINESS PANIC IN MEXICO.

Caused By the Unprecedented Fall  
of Silver.

STEAMER UMBRIA SINKS IN MID-OCEAN.

New York, July 28.—A terrible plague of mosquitoes is setting the people of this city and the Jersey coast wild. Many children have died as a result of poison from the mosquito bites. This plague is new in its fatal effects.

HOW IT WORKS.

Mexico City Suffering From a  
Severe Business Panic.

The Rapid and Unprecedented Fall of Silver.

SINKS IN MID-OCEAN.

The Loss of Life Prevented With  
Great Difficulty.

London, July 28.—News has reached here of the sinking of the steamer Umbria off the coast of Mexico. The ship was carrying a cargo of silver and was with great difficulty saved by the crew and passengers were rescued.

EVERY CLAIM TAKEN.

No Chance to Get in Near the  
Klondike Diggings at  
This Time.

San Francisco, July 27.—Every claim within miles of the Klondike is taken up, and nearly 8000 people are at the new diggings. Those who got in late have gone further to the north of the Klondike, looking for new locations, and the matter of hunting gold in Alaska has resolved itself into a proposition of finding the mother lode and new pockets.

T. J. Kelly, a prospector, has arrived from the Klondike. He brought 115,000.

The Klondike craze has struck the native element here. Competing all kinds are being organized, and the signs and windows left empty are appearing with marvelous rapidity in the principal business streets.

Canada May Charge Royalty.

Vancouver, B. C., July 27.—It is reported here that the Dominion government has decided to place a royalty on all gold mined in Canadian territory in the Yukon district, and that a corps of officials will leave here immediately to enforce this decision. It is probable that the Canadian government will build a telegraph line from Llan canal to the Klondike, and that a system of reserving alternate sections will be adopted.

The Latest Trust.

Delhi, Ind., July 28.—A black-berry trust has been formed in Brown county and the object will be to raise the price of wheat. The crop this year is so large that the prices offered do not justify the picking.

KILLED HIS FRIEND.

Perhaps He Didn't Know It Was  
Loaded.

Madisonville, Ky., July 28.—John Scott accidentally shot and killed his friend, Frank Costell, while playing with a pistol. Scott is a single man, with grief over the terrible accident.

## BIG MEN THESE.

Illinois Central Inspection Party  
Goes Through.

HAD A COUNT, TOO.

Vice-President Harahan Expresses  
Satisfaction With the River  
Front Improvements.

REMAINED HERE BUT A SHORT TIME.

At 12:10 today four elegant palace cars backed into the Union depot. They contained several of the biggest railroad magnates in the United States.

It was a special train bearing the inspection party of Illinois Central officials to the Ohio Valley road, to make an inspection of this, the latest acquisition to the great system which already extends into twelve different states. In the party were President Stuyvesant Fish, Second Vice President J. T. Harahan, Assistant General Manager M. C. Gilless, Col. J. B. Lyon and Count Plots-Conely, all of Chicago, the latter two being capitalists and stockholders in the railroad.

The party was met here by Trainmaster J. J. Flynn and Supp. W. J. Harahan, who left with the party after the departure of the 12:10 south bound passenger for Princeton.

From Princeton they go to Hopkinsville, thence over the Ohio Valley road. They came here via Folton.

Second Vice President Harahan, while at the Union depot walked down and took a look at the new double incline, and at the grading that has just been completed for the river front improvements.

"What do you think of the work?" he was asked by a reporter.

"Well, I haven't seen much of it," was his pleasant reply, "but it has the appearance of being well performed."

"And that road around there," he continued, "is a very costly improvement, and a great advantage to the city."

The party remained here fifteen minutes or more, and will probably come through Paducah on its return.

CONTROL OF GREEK FINANCES.

Claim That it is Necessary to Secure  
the War Indemnity.

Berlin, July 27.—The Cologne "Gazette" says that several of the powers, including Germany, have adopted the standpoint that the evacuation of Thessaly by Turkey can not be demanded unless indemnity by Greece is paid or guaranteed.

As payment of indemnity by a loan is out of the question, the only alternative, the "Gazette" says, seems to be international control of Greek finances, and unless some such guarantee is included in the treaty of peace between Greece and Turkey, it is questionable whether Germany will recommend the Sultan to accept the treaty.

MORE MEN PUT TO WORK.

Large Movement of Coal From the  
West Virginia Field.

Wheeling, July 27.—The coal strike in this state did not show much change today. At Fairmount the Monongah mines added a number of men to their working force, making 160 men employed, about twenty of the force before the strike. Eighty men came into the field from Connellsville, and were put to work in the various mines. All the Watson mines are working full, as are the Gaston, Montana, New England and West Fairmont.

OFF FOR HIS VACATION.

The President Has Gone Out Will  
Think of Paducah and  
Mayfield.

Washington, July 28.—The President left this afternoon for his vacation on Lake Champlain.

He will appoint the Mayfield, Paducah and Lexington postoffices while absent.

SENATOR DE BOE

Talks State Politics to a Few  
Friends at Louisville.

Senator W. J. Deboe held a conference at the Galt House yesterday afternoon with several prominent Republican state politicians, says the day's Courier-Journal. Among the number were Insurance Commissioner D. N. Comings, of Frankfort; Secretary K. J. Hampton, of the Republican state central committee; United States Marshal A. D. James, Mr. A. T. Reed, and also Mayor Todd.

The subject of the session was the range and the outlook in the state for the campaign this fall. Senator Deboe informed Mayor Todd that just before leaving Washington the President said to him: "I will appoint Mr. Sapp as collector before I leave on Wednesday for my vacation."

"So you may look for his nomination tomorrow," said the Senator. He told Mr. Comings that his appointment as collector would be made

in September, and that "nothing had occurred to cause any doubt about his appointment." The Senator also said that there would be no hitch in the appointment of the other men recommended by him to the President, including the surveyorship for C. M. Barnett.

Senator Deboe has gained in flesh during his initial service in the Senate. He left at 6 o'clock last evening for his home in Marion, Crittenden county.

"I shall spend a few weeks winding up my law business," he said, "and then will take a few short trips. I shall make some speeches in the campaign this fall."

The Senator said he would attend the state convention on August 10. In speaking of the prospects for Republican success in November, he said that the party would win by a safe plurality. He thought the gold Democrats would poll a fine vote.

World Men the Custom House.

Washington, July 28.—Collector John W. Yerkes is trying hard to have the custom house for his district moved from Richmond to Danville. The people of Richmond are greatly exercised over the proposed removal and are in exposing many objections.

S. J. ROBERTS  
AND C. E. SAPP

Made Collectors of Internal Revenue  
Today by the  
President.

Paducah and Mayfield Will Be  
Considered Before the President  
Comes Back From  
His Vacation.

Washington, July 28.—The President today appointed Sam J. Roberts and C. E. Sapp collectors of internal revenue at Lexington and Louisville respectively.

More Offices for the Boys.

Washington, July 28.—The civil service rule of Cleveland in regard to the internal revenue deputies was revoked by President McKinley today. This lets in over five hundred good places that can be filled by Republicans. The office of deputy collector at Owensboro, given to E. T. Franks, is included in this order.

Washington, July 28.—Daniel Sweeney, of Ohio, was today appointed consul to Cork, Ireland.

DAMAGE SUIT

About to Be Filed Against the  
Paducah News.

Dr. L. T. Cooper, of the Quaker  
Medicine Company, the  
Plaintiff.

The Paducah "News" is about to have a libel suit on its hands, says yesterday's Mayfield "Mirror." Drs. L. T. Cooper and A. T. P. P. representative of the Quaker Medicine Co. were in the city yesterday, securing affidavits from the local authorities proving something they published to be untrue.

The report published in the "News" accuses Dr. Cooper of bigamy, and as having been arrested here some time ago on that charge. At the time the report was published Dr. Cooper claims to have been in Georgetown, Ky., and the item came to him in print as a surprise.

A few days since Dr. Cooper went to Union City to sell his medicines, and while there married one of the most prominent young ladies of the city. He claims he has been doing an injustice by said article, and is now securing evidence with which to prosecute the News Publishing Co. for damages.

The writer of this article had the pleasure of meeting Drs. Cooper and Payne, and from their appearance and conversation they seem to be gentlemen in every sense of the word.

They left on the local freight for Paducah yesterday afternoon where they intend filing suit for \$25,000 damages.

The Prosperous Farmer.

Two farmers of Jefferson county are doing well with their potato crop this year. A commuter saw one of the most forward of them, who was an old acquaintance, going into a broker's office yesterday, and following him up, found him buying some bonis. "Hello," said he, "my old compeer, how are you? I sold my potatoes at 40 cents a bushel and had to hustle for customers. I had to have just closed out a good crop at \$1.30 a bushel, and I want to have my profit. And," he added, "but my hand is in the money to show you words quietly in the cornucopia of ears. I'm glad you will find a fine silver Dutchman in my pocket this year."

All persons are hereby notified that the Farmers of Toes and King and John H. Rogers & Son are hereby warned, to do and send the same at once at my office, 100 1/2 South Fourth street, and thereby save to themselves costs, as I will be forced to proceed by law to collect same, unless otherwise settled promptly.

Ed H. Purnear.

Receiver of Rogers & King and John Rogers & Son.

## ENGINES COLLIDE.

Damaging Wreck at Ninth and  
Trimble Streets.

NBODY WAS INJURED.

The Switch Was Not Thrown and  
the Locomotives Crashed  
Together.

OTHER ILLINOIS CENTRAL NOTES

A disastrous collision of Illinois Central locomotives occurred about 5 o'clock this morning at the intersection of Trimble street and the railroad, but fortunately no one was injured.

Engine No. 1190, in charge of engineer Pat Grogan and fireman Frank Harris, had just arrived from Fulton with the 7:50 passenger train and after being uncoupled started for the round house.

Engine No. 1334, in charge of engineer Graves and fireman Hunter, was in readiness to carry the train on towards Louisville, and had started back to the train.

The switch at Trimble and Eighth streets had not been thrown by switchman Overstreet, and instead of the outgoing engine passing the other on separate tracks the latter backed into the rear of engine 1190 as it passed into another track.

The blow was a hard one, and the tank of No. 1334 was so demolished that all the water ran out, the right cylinder knocked off, the piston rod bent and the piston crashed almost off.

Engine No. 1190 had her tank badly wrecked and the rear trucks and wheels were knocked completely off.

A fresh locomotive was telephoned for and the passenger train was carried out fifteen minutes late by engineer Thompson and fireman Colthamer.

Conductor Miller and flagman Josh Benton carried out President Fish, assistant general manager Gilless and vice president Harahan on the special which arrived at noon.

St. W. J. Harahan came in last night from Louisville.

President Stuyvesant Fish and Vice President J. T. Harahan passed through Paducah on a special train about noon en route to the Ohio Valley road, to make a tour of inspection. This would confirm the belief that the L. C. bought the O. V. road.

Mr. E. B. Bower, the civil engineer, is in the city.

Conductor H. G. Thompson, of the Memphis division, came up today on a visit to his wife.

NOT UNDER CIVIL SERVICE.

So Holds Judge Barr as to Internal Revenue Office  
Deputies.

Dr. A. D. James, the newly appointed Republican United States marshal for Kentucky, won a victory this morning in the United States circuit court, says the Louisville "Post." Judge Barr holding that the deputies in the office did not come within the purview of the civil service act, and that their terms of office expired at the time the term of their principal, Marshal James S. Blackburn, expired.

The question arose in the case of Lee J. Dudley, who held the position of bookkeeper under Marshal Blackburn, and who brought an injunction suit against Dr. James to prevent the question of whether or not the office deputies were under the jurisdiction of the civil service.

Judge Barr held that the office deputies were upon the same footing as the field deputies, and as there had been no question raised as to the right of the marshal to remove his field deputies, that they held office at the will and convenience of the marshal and that their term of office terminated at the expiration of the term of office of the marshal who appointed them.

Dudley's motion for a temporary injunction against the new marshal was overruled. The question will come up again next fall on a motion for a permanent injunction before the judges of the United States court, but it is safe to say that, as the court refuses to grant temporary relief, that the motion of permanent relief will be refused also.

#### A BICYCLE FALL.

Broke Chief Charlie Voight's Wrist Last Night.

Chief of the Fire Department Chas. Voight has one wrist in a plaster of Paris case today. Last night while riding on South Third street he fell from his bicycle, injuring his wrist. After retelling the member began complaining him and he went to Dr. Robertson. It was then found that the wrist was broken, and the Chief as a result will be unable to use his arm for some time.

We have tried up one of the nicest barber shops in the state in the room next door to Detzel, formerly occupied by Detzel for a restaurant. We have employed Kelly Arent and Sandy Slattery, two well known barbers, to assist us. Our motto is polite attention, clean towels, and sharp razors. Thanking our customers for past favors, and asking them to continue with us, and the public at large, we remain, WILL LOTT AND DAVID TANKRE.
